Sai Supraja

Business Intelligence Analyst

USA | +1 (346) 638-2828 | saisupraja294@gmail.com | LinkedIn

Professional Summary

Business Intelligence Analyst with 4+ years of experience in designing enterprise BI solutions, developing interactive dashboards, and transforming complex datasets into actionable business insights. Expertise in Power BI, Tableau, SQL, Python, Excel, ETL, Azure Data Factory, and Data Warehousing. Delivered BI solutions reduced manual reporting by 55%, improved data accuracy by 35%, and accelerated business decision-making by 40%. Skilled in data modeling, SQL optimization, KPI reporting, automation, and collaborating with cross-functional teams to drive business growth in Agile environments.

Professional Experience

Walmart, USA — Jul 2025 – Present

Business Intelligence Analyst

- Developed enterprise-wide Power BI dashboards integrating sales, finance, supply chain, and customer data, reducing manual reporting effort by 55%.
- Automated ETL workflows using Azure Data Factory, SQL, and Power Query, reducing data refresh time by 50%.
- Created executive KPI dashboards enabling leadership to monitor revenue, profitability, inventory, and customer performance in real time, improving decision-making speed by 40%.
- Built reusable DAX measures, calculated columns, and Power Query transformations, reducing report development time by 35%.
- Implemented Row-Level Security (RLS), data governance policies, and validation processes, improving reporting accuracy to 99%.
- Collaborated with business stakeholders to gather requirements and deliver BI solutions that improved operational efficiency by 30%.
- Automated weekly and monthly reporting processes, saving over 25 hours per week across business teams.

Accenture India — Jun 2022 – Jul 2023

Business Intelligence Developer

- Designed and deployed Power BI & Tableau dashboards for finance, HR, sales, & operations, improving reporting efficiency by 45%.
- Developed optimized SQL stored procedures, views, and complex queries, reducing report execution time by 40%.
- Built enterprise data models using Star Schema and Snowflake Schema, improving reporting scalability by 35%.
- Streamlined ETL pipeline creation leveraging SQL, SSIS, and Azure Data Factory; achieved a significant reduction in manual processing tasks that led to an overall efficiency gain of approximately 50% monthly.
- Integrated ERP, CRM, and cloud-based data sources into centralized BI solutions, improving data accessibility by 40%.
- Worked in Agile Scrum teams, participating in sprint planning, UAT, deployment, and production support while maintaining 98% on-time project delivery.
- Performed data cleansing, validation, and reconciliation, increasing data quality and reporting accuracy by 30%.

XLogic, India — Feb 2021 – May 2022

Data Analyst

- Investigated large business datasets with SQL, Python, and Excel, uncovering trends that boosted operational efficiency by 20% and improved data quality by 30%.
- Cleaned, transformed, and validated over 5 million records, ensuring 99% data accuracy for business reporting.
- Automated Excel reports using Power Query and VBA, reducing manual effort by 35%.
- Created interactive business intelligence dashboards using Power BI and Tableau, improving data visualization and reducing report generation time by 40%.
- Performed exploratory data analysis (EDA) and statistical analysis to identify customer behavior and business opportunities.
- Assisted in developing ETL workflows and data migration processes supporting enterprise reporting initiatives.
- Collaborated with cross-functional teams to define KPIs and business metrics, improving reporting consistency by 25%.

Certifications

- Power BI Data Analyst Associate
- Azure Data Fundamentals

Skills

- **Business Intelligence:** Power BI, Tableau, Looker, Microsoft SSRS, SAP BusinessObjects
- **Programming & Query Languages:** SQL, Python (Pandas, NumPy), R, DAX, Power Query (M)
- **Databases:** SQL Server, MySQL, PostgreSQL, Oracle Database, Snowflake, Amazon Redshift
- **Data Warehousing:** Data Modeling, Star Schema, Snowflake Schema, Dimensional Modeling, Data Warehouse Design
- **ETL & Data Integration:** SSIS, Azure Data Factory, Informatica, Talend, Alteryx, ETL Pipeline Development
- **Cloud Platforms:** Microsoft Azure, AWS, Google Cloud Platform (GCP)
- **Reporting & Visualization:** Interactive Dashboards, KPI Reporting, Executive Dashboards, Self-Service BI, Data Storytelling
- **Analytics:** Exploratory Data Analysis (EDA), Statistical Analysis, Forecasting, Trend Analysis, Root Cause Analysis
- **Microsoft Office:** Advanced Excel, Pivot Tables, Power Pivot, Power Query, VBA, XLOOKUP
- **Business Applications:** SAP, Oracle ERP, Salesforce CRM, Microsoft Dynamics 365
- **Tools:** Git, GitHub, Azure DevOps, Jira, Confluence
- **Methodologies:** Agile, Scrum, SDLC, Waterfall

Education

Master of Science in Data Science — Aug 2023 – May 2025

University of Houston, USA
